Dear Store Manager,

Mammoth Creameries keto frozen custard is full of flavor and nutrients, without a long list of ingredients you can't pronounce. They are changing the dessert game and want to make sure everyone can enjoy ice cream, even those with dietary restrictions, as each pint is low in sugar and free of fillers.

I am requesting that you please carry Mammoth Creameries in your freezer section, where I'll be sure to look for them.

If you have any additional questions, please feel free to contact Mammoth Creameries directly at info@mammothcreameries.com
